SUMMARY

Passionate Full-Stack Developer specializing in React.js, Next.js, Node.js, and the MERN stack. Experienced in building scalable SaaS platforms, AI-powered applications, and real-time communication systems. Skilled in modern UI/UX development, API integration, and responsive frontend engineering with a strong focus on performance optimization and clean architecture.

EXPERIENCE

Frontend Developer

YashIT Services

December 2025 - March 2026, Malad, Mumbai

- Developed a pest control management platform serving internal business operations and customer management workflows.
- Integrated technician photo/signature capture functionality, reducing manual reporting efforts by approximately 40%.
- Automated PDF report generation, improving operational efficiency and reducing paperwork processing time.
- Optimized responsive UI performance across desktop and mobile devices for smoother user experience.
- Collaborated with backend developers to integrate APIs and improve real-time data handling.

Frontend Developer

Archi-Touch

February 2025 - August 2025, Online

- Designed and developed a responsive business website with advanced animations and modern UI/UX practices.
- Improved client engagement by approximately 20% through visually interactive landing pages and smoother navigation.
- Optimized website responsiveness across multiple screen sizes and devices.
- Implemented lightweight frontend animations to improve overall user experience and visual appeal.
- Reduced page interaction latency by optimizing frontend rendering and transitions.

SKILLS

Frontend:- JavaScript, TypeScript, React.js, Next.js

Backend:- Node.js, Express.js, REST APIs

Database:- PostgreSQL, MongoDB, Prisma

Tools:- Git, GitHub, Postman

PROJECT

Served - Ai Powered Recipe Platform

Online • github.com/YashPuniwala/ai-recipe-platform

- Built a full-stack AI-powered recipe generation platform that creates personalized recipes based on user preferences and ingredients. Implemented secure authentication, real-time API integration with Gemini AI, and responsive UI for seamless user experience using React, Node.js, Express, and MongoDB.

Multitenant E-commerce Platform

Online • github.com/YashPuniwala/funroad

- Developed a modern e-commerce web application with secure user authentication, product management, shopping cart, and Stripe payment integration. Designed responsive interfaces and optimized backend APIs for smooth performance and scalable order management.

Streamify — Language Exchange Social Platform

Online • streamifychatyyy.netlify.app/

- Created a real-time language learning and social interaction platform enabling users to connect globally through chat, video calling, and language matching. Integrated Stream Chat and Stream Video SDK for live communication and built a responsive MERN-stack architecture for seamless collaboration and engagement.

LMS Course MERN Stack

Online • github.com/YashPuniwala/LMS-Course

- Designed and developed a Learning Management System (LMS) with course enrollment, progress tracking, and secure role-based authentication for students and administrators. Implemented interactive dashboards, payment workflows, and scalable backend services using the MERN stack.

EDUCATION

Bachelor of computer application (BCA)

Minor in Fullstack Development • Thakur Polytechnic • Kandivali, Mumbai • 2025 • 7.67

CERTIFICATIONS

The Complete Full-Stack Web Development Bootcamp

Udemy • 2025

- Gained hands-on knowledge in full-stack web development including HTML, CSS, JavaScript, React.js, Node.js, Express.js, MongoDB, and APIs. Learned frontend and backend development concepts used in modern web applications while building practical projects that improved problem-solving and development skills.
-
